Skills

Programming Languages
Experienced with C++, Python and Familiar with C#, C, Java

Web Technologies
HTML5, CSS3, JavaScript, Django framework, ASP.NET MVC

Software Testing
Robot Framework, Selenium, ISTQB Foundations (currently studying)

Database and .NET Stack
.NET Core, Microsoft SQL Server, Language Integrated Query (LINQ), Entity Framework, SQL

Other
Git, Firebase, Data Structures and Algorithms, Object-Oriented Programming (OOP), Problem-solving and analytical thinking abilities, Design Patterns, Solid Principles, Basics of Machine Learning, Familiarity with Parallel Programming with MPI (C language)

Education

Information Technology Institute (ITI)
Intensive Code Camp (ICC) 4-months program
2024/11 – 2025/02
Track: Full stack web development using python

Bachelor's degree
Faculty of Computers and Artificial Intelligence - Cairo University
2024
GPA: 3.14 (Very Good)

Information Technology Institute (ITI)
1-Month Student Summer Training
2023
Track: Web Development Using .NET

Courses and Internships

Mastering Object-Oriented Programming (OOP) using C++
2024

Database Fundamentals
2024

Trainee at (She Works Wonders - شغل عاملة) program by INJAZ Egypt
2023

[Introduction to Software Testing Concepts & Techniques] on ITI platform "Mahara-Tech"
2023

[Web Challenger Track] from Udacity, Sponsored by Egypt FWD
2022

[Front-End Developer Nanodegree] (Udacity)
2021

Projects

Automatic-Exam-Grading-System ⧉
- Technologies Used: Django, HTML/CSS, JavaScript, SQLite, Python

Ecommerce-ASP.NET-MVC-Application ⧉
- Technologies Used: ASP .NET MVC , Entity Framework, SQL Database, Language Integrated Query (LINQ) , C#

Robot-Framework-IMDb-Automated-Testing ⧉
- Language Used: RobotFramework

Robot-Framework-ToDoApp-Automated-Testing ⧉
- Language used: RobotFramework
